ARMAKLEEN™ 4 in 1 Cleaner – Cleaning Solution
MATERIAL SAFETY DATA SHEET FOR USA AND CANADA

SECTION 1: PRODUCT AND COMPANY IDENTIFICATION

PRODUCT NAME: ARMAKLEEN™ 4 in 1 Cleaner – Cleaning Solution
SYNONYM(S): Not available
PRODUCT PART NUMBERS: Not available
PRODUCT USE: Aqueous, alkaline, concentrated cleaner that is to be diluted with water and used for cleaning aluminum, magnesium, titanium, ferrous and non-ferrous alloys as well as plastic, glass and composite materials. Concentrated cleaner must be diluted prior to use to meet local and state VOC emission regulations.

### SECTION 3: HAZARDS IDENTIFICATION

**EMERGENCY OVERVIEW**

**APPEARANCE**
Liquid, clear, tan color, and mild detergent odor.

**CAUTION**

**HEALTH HAZARD**
May irritate the respiratory tract (nose, throat, and lungs), eyes, and skin. Product may be heated during use and could cause serious thermal burns.

**POTENTIAL HEALTH EFFECTS**

**INHALATION (BREATHING):**
High concentrations of vapor or mist may irritate the respiratory tract (nose, throat, and lungs).

**EYES:**
May cause irritation. Effects will be minimized with washing.

**SKIN:**
May cause irritation. Not likely to be absorbed through the skin in harmful amounts.

**INGESTION (SWALLOWING):**
May cause digestive tract irritation.

02/12; MSDS Form No.820070 Page 2 of 10
MEDICAL CONDITIONS AGGRAVATED BY EXPOSURE: Individuals with pre-existing respiratory tract (nose, throat, and lungs), eye, and/or skin disorders may have increased susceptibility to the effects of exposure.

CHRONIC: Prolonged or repeated skin contact may cause drying, cracking, redness, itching, and/or swelling (dermatitis).

CANCER INFORMATION: No known carcinogenicity. For more information, see SECTION 11: CARCINOGENICITY.

POTENTIAL ENVIRONMENTAL EFFECTS
Not available. Also see SECTION 12: ECOLOGICAL INFORMATION.

SECTION 4: FIRST AID MEASURES

INHALATION: Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Oxygen should only be administered by qualified personnel. Someone should stay with victim. Get medical attention if breathing difficulty persists.

EYES: If irritation or redness from exposure to vapor or mist develops, move away from exposure into fresh air and flush with water for 5 minutes. Upon direct contact with liquid, immediately flush eyes with plenty of lukewarm water, holding eyelids apart, for 15 minutes. Get medical attention.

SKIN: Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water. Get medical attention if irritation or pain develops or persists.

INGESTION: Do NOT induce vomiting. Immediately get medical attention. Call medical emergency telephone number (1-800-468-1760) for additional information. If spontaneous vomiting occurs, keep head below hips to avoid breathing the product into the lungs. Never give anything to an unconscious person by mouth.

NOTE TO PHYSICIAN: Treat symptomatically and supportively. Ingesting large amounts may cause systemic alkalosis. Treatment may vary with condition of victim and specifics of incident. Call medical emergency telephone number (1-800-468-1760) for additional information.
SECTION 5: FIRE FIGHTING MEASURES

FLASH POINT: >212°F (>100°C)

FLAMMABLE LIMITS IN AIR: Not applicable.
AUTOIGNITION TEMPERATURE: Not applicable.

HAZARDOUS COMBUSTION PRODUCTS: Product itself does not burn, but may decompose upon heating to produce carbon monoxide and nitrogen oxides.

CONDITIONS OF FLAMMABILITY: Product will not burn.

EXTINGUISHING MEDIA: Not applicable.

NFPA 704 HAZARD IDENTIFICATION: This information is intended solely for the use by individuals trained in this system.

FIRE FIGHTING INSTRUCTIONS: Keep storage containers cool with water spray.
A positive-pressure, self-contained breathing apparatus (SCBA) and full-body protective equipment are required for fire emergencies.

FIRE AND EXPLOSION HAZARDS: Heated containers may rupture. “Empty” containers may retain residue and can be dangerous. Not sensitive to mechanical impact or static discharge.
SECTION 6: ACCIDENTAL RELEASE MEASURES

Spilled product is slippery. Do not touch or walk through spilled product. Stop leak if you can do it without risk. Wear protective equipment and provide engineering controls as specified in SECTION 8: EXPOSURE CONTROLS/PERS ONAL PROTECTION. Isolate hazard area. Keep unnecessary and unprotected personnel from entering. Ventilate area and avoid breathing vapor or mist. Contain away from surface waters and sewers. Contain spill as a liquid for possible recovery or sorb with compatible sorbent material and shovel with a clean tool into a sealable container for disposal.

Additionally, for large spills: Dike far ahead of liquid spill for collection and later disposal.

There may be specific regulatory reporting requirements associated with spills, leaks, or releases of this product. Also see SECTION 15: REGULATORY INFORMATION.

SECTION 7: HANDLING AND STORAGE

HANDLING: Use clean tools. Do not breathe vapor or mist. Use in a well ventilated area. Avoid contact with eyes, skin, clothing, and shoes.

SHIPPING AND STORING: Keep container tightly closed when not in use and during transport. Store containers in a cool, dry place. Empty product containers may retain product residue and can be dangerous.

SECTION 8: EXPOSURE CONTROLS/PERS ONAL PROTECTION

ENGINEERING CONTROLS: Provide general ventilation needed to maintain concentration of vapor or mist below applicable exposure limits. Where adequate general ventilation is unavailable, use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits.

PERSONAL PROTECTIVE EQUIPMENT

RESPIRATORY PROTECTION: Not required under normal conditions of use

EYE PROTECTION: Where eye contact is likely, wear chemical goggles; contact lens use is not recommended.

SKIN PROTECTION: Where skin contact is likely, wear nitrile, neoprene, or equivalent protective gloves; use of polyvinyl alcohol (PVA) or equivalent gloves is not recommended.
ARMAKLEEN™ 4 in 1 Cleaner – Cleaning Solution
MATERIAL SAFETY DATA SHEET FOR USA AND CANADA

To avoid skin contact where spills and splashes are likely, wear appropriate chemical-resistant faceshield, boots, apron, whole body suits, or other protective clothing.

PERSONAL HYGIENE:

Use good personal hygiene. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco products. Clean contaminated clothing, shoes, and protective equipment before reuse. Discard contaminated clothing, shoes, or protective equipment if they cannot be thoroughly cleaned. Discard leather articles, such as shoes, saturated with the product.

OTHER PROTECTIVE EQUIPMENT:

Where spills and splashes are likely, facilities storing or using this product should be equipped with an emergency eyewash and shower, both equipped with clean water, in the immediate work area.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

PHYSICAL STATE, APPEARANCE, AND ODOR: Liquid, clear, amber color, and mild detergent odor.

ODOR THRESHOLD: Not available.

MOLECULAR WEIGHT: Not applicable.

SPECIFIC GRAVITY: 1.005 g/ml (water = 1)

DENSITY: 8.4 US Pounds/Gallon

VAPOR DENSITY: Less than 1 (air = 1)

VAPOR PRESSURE: 17.5 mm Hg at 68°F (20°C) (approximately)

BOILING POINT: 212°F (100°C)

FREEZING/MELTING POINT: 32°F (0°C)

pH:

TOXICOLOGICALLY SYNERGISTIC PRODUCT(S): Based on best current information, there are no known toxically synergistic products associated with this product.

SECTION 12: ECOLOGICAL INFORMATION

ECOTOXICITY: Not available.

OCTANOL/WATER PARTITION COEFFICIENT: Not available.

SECTION 13: DISPOSAL CONSIDERATIONS

DISPOSAL: Dispose in accordance with federal, state, provincial, and local regulations. Regulations may also apply to empty containers. The responsibility for proper waste disposal lies with the owner of the waste. Contact Safety-Kleen regarding recycling or proper disposal.

USEPA WASTE CODE(S): This product, if discarded, would not be a hazardous waste by listing, and is not expected to be a characteristic hazardous waste. Processing, use, or contamination by the user may change the waste code(s) applicable to the disposal of this product.

SECTION 14: TRANSPORT INFORMATION

DOT: Not regulated.

TDG: Not regulated.

EMERGENCY RESPONSE GUIDE NUMBER: Not applicable. Reference North American Emergency Response Guidebook

SECTION 15: REGULATORY INFORMATION

USA REGULATIONS

VOLATILE ORGANIC COMPOUNDS (AS REGULATED)

2.5% Solution  0.51 WT%; 0.044 LB/US gal; 5.25 g/L; As per 40 CFR Part 51.100(s)
Product Vapor Pressure @20°C = 17.5 mmHg
Product does not contain photochemically reactive solvents

5.0% Solution  1.02 WT%; 0.088 LB/US gal; 10.5 g/L; As per 40 CFR Part 51.100(s)
Product Vapor Pressure @20°C = 17.5 mmHg
Product does not contain photochemically reactive solvents

10% Solution  2.04 WT%; 0.175 LB/US gal; 21g/L; As per 40 CFR Part 51.100(s)
Product Vapor Pressure @20°C = 17.5 mmHg
Product does not contain photochemically reactive solvents

SARA SECTIONS 302 AND 304:
This product does not contain any extremely hazardous substances listed pursuant to Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA) Section 302 or Section 304 as identified in 40 CFR Part 355, Appendix A and B.

SARA SECTIONS 311 AND 312:
This product poses the following health hazards as defined in 40 CFR Part 370 and is subject to the requirements of sections 311 and 312 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA):
Immediate (Acute) Health Hazard

SARA SECTION 313:
This product does not contain toxic chemicals subject to the requirements of section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 372.

CERCLA:
Based on the ingredients listed in SECTION 2, this product contains the following "hazardous substances" listed under the Comprehensive Environmental Response, Compensation and Liability Act of 1980 (CERCLA) in 40 CFR Part 302, Table 302.4 with the following reportable quantity (RQ):

TSCA:
All the components of this product are listed on, or are automatically included as "naturally occurring chemical substances" on, or exempted from the requirement to be listed on, the TSCA Inventory.

CALIFORNIA:
This product does not contain detectable amounts of any chemical known to the State of California to cause cancer.

This product does not contain detectable amounts of any chemical known to the State of California to cause birth defects or other reproductive harm.

CANADIAN REGULATIONS
This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations (CPR) and the MSDS contains all the information required by the CPR.
ARMAKLEEN™ 4 in 1 Cleaner – Cleaning Solution
MATERIAL SAFETY DATA SHEET FOR USA AND CANADA

WHMIS: E

CANADIAN ENVIRONMENTAL PROTECTION ACT (CEPA):
All the components of this product are listed on, or are automatically included as “substances occurring in nature” on, or are exempted from the requirement to be listed on, the Canadian Domestic Substances List (DSL).

SECTION 16: OTHER INFORMATION

REVISION INFORMATION: Add statement concerning the product being heated to Emergency Overview statement box in Section 3.

LABEL/OTHER INFORMATION: Not available

User assumes all risks incident to the use of this product. To the best of our knowledge, the information contained herein is accurate. However, The ArmaKleen Company assumes no liability whatsoever for the accuracy or completeness of the information contained herein. The data contained on this sheet apply to the product as supplied to the user.
FIELD NOTICE on Heater Pump Module (HPM) M2387 Changes

- Starting around July 2011 the HPM M2387's have had their plastic pumps replaced with a stronger, more durable pump. To date we have replaced over 14,000 pumps. Instructions are included on how to identify the new vs. old pump module. Please refer to the Field Notice Model 2387 POM Pump in your launch kit.

- Currently all GFCI (Ground Fault Circuit Interrupter) are being replace with components that have higher thermal properties and cycle count dramatically increasing their life.

New vs Old

New: Red Lettering

Old: Black Lettering
**Product Affected:** The new, Armakleen 4-in-1 Cleaner and the Model 2387 HPM (p/n 2387)

**SK Personnel Affected:** BGM, (all branch personnel involved in placing 4-n-1 Cleaner Model 2387 installation and service)

**New POM Pump with Red letters on Label**

**Current ABS Pump with Black letters on Label**

**POM Pump comes in Brown Box**

**ABS Pump comes in White Box**

**Objective:** To notify SK:
1. The new, Armakleen 4-n-1 Cleaner is more concentrated, use ½ as much as all other cleaners
2. Use the new POM pump, for the Model 2387, with all 4-n-1 Cleaner placements
3. The POM pump is recognized by a red-lettered label on the cord

**Reason for Change:** The 4-n-1 Cleaner is stronger and will attack the older ABS pump module in the Model 2387. The POM pump is made of a chemical resistant material that lasts longer

**Affected Customers:** All Customers using the 4-n-1 Cleaner in the Aqueous Parts Washer with a Model 2387 HPM

**Instructions:**
1. Use ½ the amount of 4-n1 Cleaner for all other cleaners. See the following table:

<table>
<thead>
<tr>
<th>Model</th>

2. Use the new POM pump, in the Model 2387 HPM, wherever the new 4-n-1 Cleaner is used
3. Dispose the older ABS pump
