3. HAZARDS IDENTIFICATION

EMERGENCY OVERVIEW

WARNING.
ON CONTACT, WILL BOND EYELIDS TOGETHER
EYE IRRITANT. SKIN IRRITANT.
ON CONTACT WILL BOND SKIN
Colorless Liquid Pungent odor

EYE
Will cause eye irritation. On contact, will bond eyelids together.
Repeated or prolonged skin contact may result in moderate irritation. On contact, immediate bonding of the skin will occur.
Vapor may be irritant to the respiratory tract. Vapor may be irritant to the respiratory tract.
On contact, immediate bonding of mouth could occur.

4. FIRST-AID MEASURES

EYE
Flush with large amounts of water while holding eyelids open. Get medical attention immediately. Cured adhesive will not bond well to surface of eye, but corneal damage from abrasion may result. Do not wear contact lenses when working with this material.

SKIN CONTACT
No attempt should be made to remove material from skin or to remove contaminated clothing, as the bonded skin can be easily torn. Wash with large volumes of soap and water while flexing bonded skin parts. This procedure will slowly release bonded areas. DO NOT mechanically remove cured adhesive or attempt to pull skin apart.

INHALATION
Remove to fresh air. If breathing is difficult, give oxygen. If breathing has stopped, give artificial respiration. Get medical attention.

INGESTION
Immediate bonding of mouth will occur. Get medical attention.

6. ACCIDENTAL RELEASE MEASURES

| Spill and Leak Procedures                     | SMALL SPILLS: wipe up with cloth. Immediately soak cloth with water to polymerize the adhesive. Caution! Cloth containing adhesive may undergo autoignition if not soaked with water. LARGE SPILLS: flood area with water. When cured, remove film with a scraper. Wear NIOSH approved respirator for organic vapors if needed, and protective clothing. |

For safety and environmental precautions, please review entire Material Safety Data Sheet for necessary information.

7. HANDLING AND STORAGE

| Storage Temperature                           | = 35 - 45 °F |
|                                               | 2 - 7 °C     |
| Handling/Storage                              | Keep away from heat, sources of ignition and direct sunlight. Keep material refrigerated at the storage temperature referenced above. |
| Other Precautions                             | Store in tightly closed containers to prevent moisture contamination. Do not seal if contamination is suspected. Avoid skin and eye contact. Do not breath vapors. |
